Wedding Party Music Request List

(This form is not intended to plan all the music but to list specific songs you wish to have played. Keep in mind you may be in one mood now and another later. When the hour comes and it's time to dance some of the songs you list, although they may be your favorites, may not be songs suitable for dancing and your guests may stay seated. While your DJ will do whatever you suggest it may be a good idea to rely on his expertise to a degree. If you have no songs to list that is OK, too. It is also recommended that songs with explicit lyrics not be played.)

Song Title	***Artist***
